

BAR MILL - AUBURN

Nucor Steel Auburn, Inc.

August 25, 2009

To All Prepaid Truck Customers:

Effective with shipments on September 1, 2009 the fuel surcharge for prepaid truckloads from Nucor-Auburn will change from \$.21 per mile to \$.23 per mile.

The Department of Energy's (DOE) National Average for August 24, 2009 is \$2.668/gal.

Nucor-Auburn is using the DOE diesel fuel National Average on the 4th Wednesday of each month to calculate the Nucor-Auburn Fuel Surcharge for the following month. We use \$1.50 as the base for fuel indices and we assume a fuel efficiency rating of 5 miles/gal. Mileage is based on practical miles using PC Miler Ver. 22.

Example: \$2.67 - \$1.50 = \$1.17/gal
\$1.17 / 5 gal/mile = \$0.23

For your reference the DOE diesel fuel National Average is published on:

<http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp> .

We thank you for your business, and if you have any questions please contact your District Sales Manger or your Inside Sales Representative at (800) 424-1494.

Sincerely,

Nucor-Auburn
Ted Jeske
Sales Manager
